

Serving industries around the world since 1950

HAM-LET Connectors

FOUNDED IN 1950, HAM-LET Group specializes in the design, development, production and marketing of high quality instrumentation valves and fittings in a wide variety of materials for high pressure, high temperature and vacuum applications. An accent on quality combined with ongoing research and development has given the company an international reputation for excellence. As a result, HAM-LET Group today is the fastest growing company in this industry. We are Totally Committed to our customers providing highest quality products and best of breed service. Our products are used around the world in a wide range of industries, including Energy, Oil & Gas, Ground Turbines, Chemical and Petrochemical, CNG/NGV, Semiconductor, Analytical and others.

LET-LOK®
Compression Tube Fittings
1/16" Through 2" 2 mm Through 50 mm-Metric

ONE-LOK
Single Ferrule Fittings
1/16" Through 1"

SAE37° FLARE
37° Flare Fittings
1/8" To 1 1/2"

WELDLINE
Instrument Weld Fittings

PIPELINE
Instrument Pipe Fittings

HOSE-END™
HAM-LET Hose Connectors

FLANGES
HAM-LET Flange Adapters

UHLINE
Ultra Vacuum Fittings

HTC®
Orbital Weld and Metal
Gasket Face Seal Fittings

Excess Flow
Valves H-911 series

T-Type & In-Line
Filters H-600 series

HAM-LET Instrumentation Valves

High Performance
Ball Valves H-6800 series

3 Piece Ball Valves
H-500 series

Compact One Piece
Ball Valves H-800 series

Ball Valves with
Locking Device H-700 series

Metering Valves
H-1300 series

Metering Ball Valves
MBV series

Integral Bonnet Needle Valves
H-300U series

High Pressure Needle Valves
H-99 series

Toggle Valves
H-1200 series

Check Valves - High Pressure,
One Piece & Adjustable
H-400 series

QCLOK®
Quick Connectors
1/4", 3/8", 1/2"

Relief Valves
H-900 & H-900HP
series

CNG/NGV
Valves for CNG/NGV
Applications
ECE R110 approved

Pressure Gauges

HAM-LET Measurement Devices
Pressure Gauges are bourdon tube measuring devices that guaranty long lasting usage with high durability for in-door and out-door industrial, process and instrumentation applications. Our **Pressure Gauges** line covers the standard characteristics and extent customization upon request.

Sample Cylinders

Permit the extraction of a sample from a remote process location and provide safe containment for storage and transportation to the laboratory for analysis. The H-285, HAM-LET Needle Valve with Rupture disc, is designed to be mounted on HAM-LET sample cylinders and provide protection against over pressure by venting the media to the atmosphere.

HAM-LET Sample Cylinder and Needle Valve with Rupture Disc

Hoses

HAM-LET's Hoses lines include full range of high quality SS hose assemblies, wide range of PTFE core SS braided hose assemblies and end connections. Availability of Full Vacuum to High pressure up to 6,000 psi (413bar). 1/4" up to 2" ID range custom length, all tested and individually packed. All HAM-LET hose assemblies are fitted with HAM-LET's quality fittings providing maximum usability and exchangeability with the highest safety levels.
